

Project Type: Education

New Construction

Project: Proposed ZBT Fraternity House

Client: University of Rhode Island

Location: Kingston, RI

Size: 30,000 sq.ft.

Project Description:

We provided schematic design services for Zeta Beta Tau Fraternity which included design of a three story multi-purpose building to replace an existing Zeta Beta Tau Fraternity house destroyed by a fire on the University of Rhode Island campus.

The project included a two story, timber framed function hall and cafeteria, and living/recreation space, a dormitory wing provides for 27 two and three bed living units with shared bathrooms. The facility also incorporated a basketball court, weight room, laundry, computer/study areas, covered front porch, patio and an outdoor barbeque.
