

Project Type: Office

Tenant Improvement

Project: Boston Financial Data Services
Location: 66 Brooks Drive
Braintree, MA
Size: 160,000 SF (4 Floors)

Project Description:

After completing the base building contract, Cramer Levine was commissioned for the interior space planning and fit-up of 160,000 sq. ft. for a worldwide computer Information Center with multiple redundancy of all systems including UPS, power, and emergency back-up generators. The program included the development of four floors of office, conference, lobby/reception, storage, cafeteria and computer facilities.

This project consisted of all phases of services from schematic design, design development, construction documents and construction observation.
