

Project Type: Office

Tenant Improvement

Project: Telco Systems
Client: Telco Systems
Location: 63 Nahatan Street Norwood, MA
Size: 298,000 SF

Project Description:

We have provided multiple services for this client over many years. Projects at their facility in Norwood, MA include renovations to the employee cafeteria, the main entrance, reception lobby and renovations to the production floor. Other projects at this location involved space planning, interior design and fit-up for the corporate offices and engineering departments. Some of the functions that we successfully integrated into their existing facility were computer rooms, test labs, engineering libraries, meeting rooms and executive suites, including boardroom. Our projects at this facility total over 298,000 square feet.
