

Project Type: Residential

New Construction

Project: Private Residence
Client: Private
Location: Sharon, MA
Size: 4,000 SF

Project Description:

Custom designed 4,000 sq. ft. residence. The first floor consists of a master bedroom suite, study, 1 1/2 baths, living room, dining room, and sunroom. The second floor consists of 3 bedrooms, a clock tower, and one bathroom. The owner's hobby is collecting clocks, so the clock tower was designed to help anchor the structure to the site. On the interior, at each level, the tower serves as a focal point for direction/destination on the first floor to kitchen or family room or dining room or toward master bedroom suite, on the upper level the tower serves as direction to bedrooms, stairs and a balcony overlooking the family room.
