

Project Type: Retail

Renovations

Project: Southwind Plaza
Location: Route 132
Hyannis, MA
Client: The Flatley Company
Size: 200,000 sq.ft.

Project Description:

Phase I of this existing 200,000 sq. ft. shopping center required construction of a single story 20,000 sq. ft. addition, overall exterior facade modifications, interior reconfiguration of demising walls and space planning of retail stores and redirection of utility and mechanical services to new tenant spaces. The shopping center has been enhanced with new retail entry facades and sidewalk improvements. The renovations and modifications to the shopping mall's exterior facade was required to satisfy the strict regulations of the Cape Cod Commission.
